

Junet Shakya

Backend Developer | Associate Software Engineer

✉ shakyajunet@gmail.com ☎ 9808303894 📍 Jyatha, Lalitpur

Profile

Backend-focused Software Engineer with over 1 year of experience developing web applications, APIs, and business solutions. Proficient in Python, Laravel, RESTful API development, MySQL/PostgreSQL concepts, and Git-based workflows. Experienced in designing scalable backend systems, database management, and integrating cloud technologies. Strong problem-solving abilities with a passion for learning distributed systems, cloud-native architectures, and modern backend development practices.

Professional Experience

Associate Software Engineer, Amnil Technologies

2025/09/26–2026/04/10
Lalitpur, Nepal

- Developed and maintained digital account opening systems for Global IME Bank, Machhapuchchhre Bank, and Citizens Bank.
- Built secure backend services using Laravel and RESTful APIs to streamline customer onboarding and account creation processes.
- Designed and optimized API endpoints for high-performance and reliable banking operations.
- Collaborated with business analysts, QA teams, and banking stakeholders to deliver secure and scalable financial solutions.
- Implemented database-driven workflows, validation mechanisms, and compliance requirements for banking applications.

Web Developer, Studio Matrix

2023/12/12 – 2024/06/12
Kathmandu, Nepal

- Contributed to the development of a multi-vendor e-commerce platform as a Project Intern using Laravel and Tailwind CSS.
- Developed and maintained backend functionalities, including vendor management, product listings, order processing, and user authentication.
- Built responsive and user-friendly interfaces using Tailwind CSS to ensure a seamless experience across desktop and mobile devices.
- Implemented RESTful APIs and integrated frontend components with backend services for efficient data handling.
- Collaborated with senior developers to design, develop, test, and deploy new features based on business requirements.
- Assisted in database design and optimization to improve application performance and scalability.
- Participated in code reviews, debugging, and troubleshooting to ensure application reliability and maintainability.
- Gained hands-on experience with Git-based workflows, Agile development practices, and full-stack web application development.

Skills

- React
- Creativity
- Negotiation
- Leadership
- HTML,CSS AND JavaScript
- Python
- Mobile Programming
- Portainer
- Node.JS
- LARAVEL
- Critical Thinking
- MySql
- Jenkins
- Kali Linux
- Processmaker
- TypeScript
- .NET

Education

+2 (Management), <i>United Academy</i>	2017 – 2019 Lalitpur, Nepal
Bachelor in Computer Application(B.C.A), <i>D.A.V College</i>	2019 – 2025 Lalitpur, Nepal
School, <i>I.J Pioneer Higher Secondary School</i>	2017 Lalitpur, Nepal

Projects

Online Furniture Rental System Built a system that allows users to rent furniture items through an online platform.
